

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTRODUCTORY

The aim of this work is to give a complete index to the educational system of the United States and Canada. The information has been thoroughly revised and brought down to date, and before final printing of the book proofs submitted to the head of each institution for O. K., or correction.

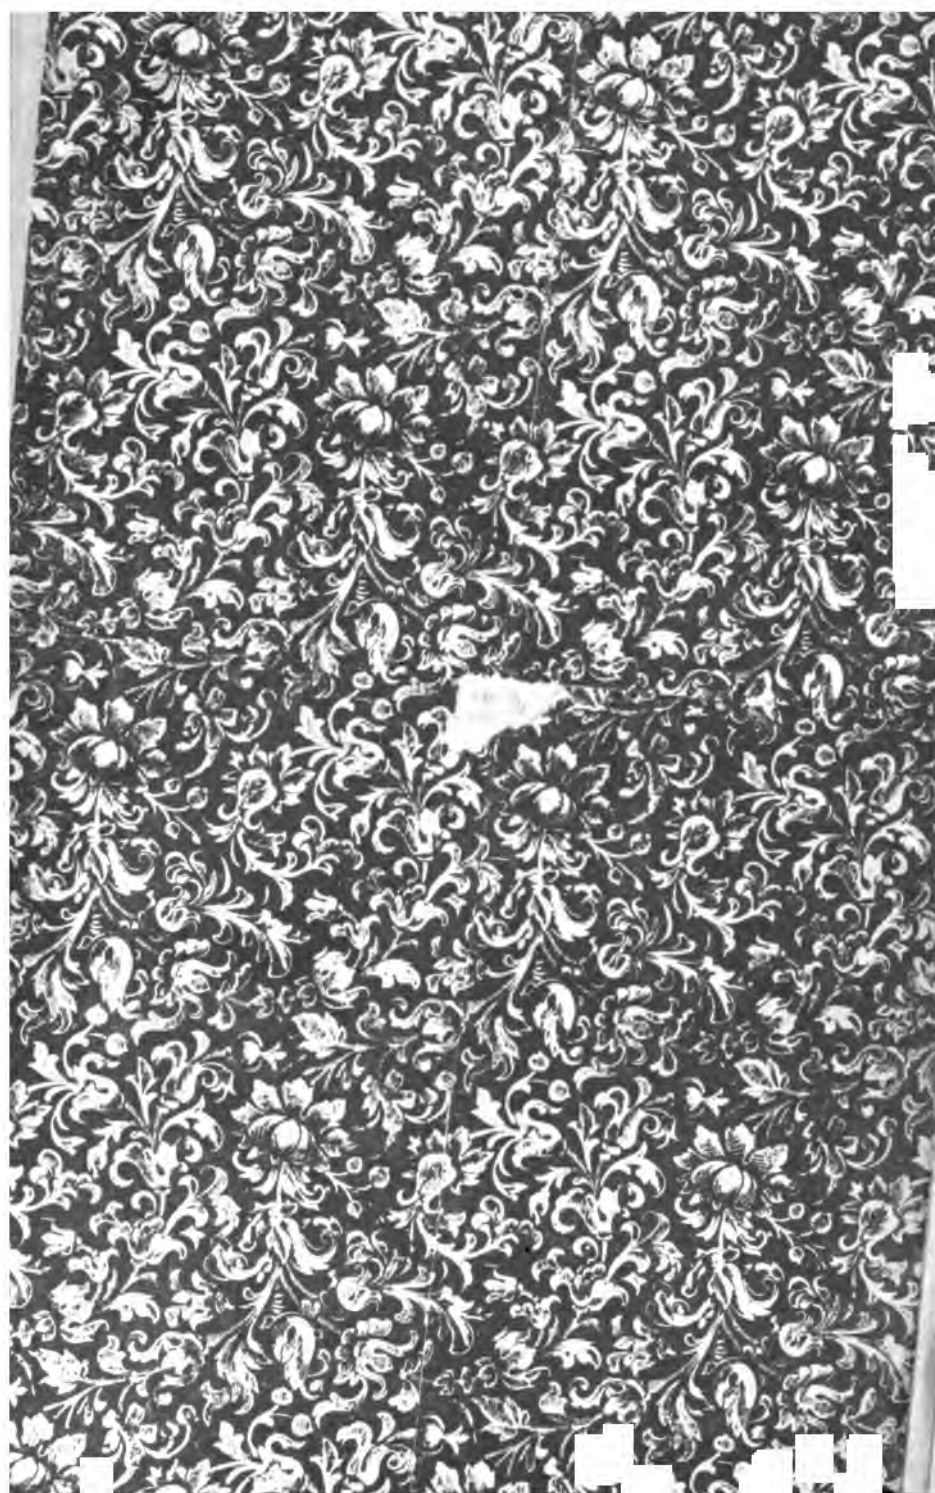

In the main classification a complete list of the schools and colleges is given, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the head of the institution with title and degrees. The counter-classification will be found a ready reference for any particular class of schools. Any school may be instantly located by referring to the complete alphabetical lists. The Public School system is fully covered by complete lists of the State Educational Officials and county superintendents of schools. The lists of College Greek-Letter Fraternities, undergraduate publications, Foreign Universities, etc., have been added for the purpose of making the book a complete educational directory, containing information upon every subject pertaining to colleges and schools. It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work.

Acknowledgments are made to the various State Superintendents of Public Instruction in this country, and to the Commissioner and Deputy Commissioners of Education of the Provinces of Canada, for their kind co-operation and assistance in compiling the information regarding the school systems; also to the editors of various fraternity and college papers for the assistance rendered by them in the departments of Greek-Letter Fraternities and college publications.

CONNECTICUT

Population, 1,065,721. School census, 234,117. School age, 4-16.

Connecticut is the twenty-ninth state of the Union in point of population, having a total of 1,065,721 inhabitants, of whom 892,424 or 98.2 per cent are white. Of this number 237,396, or 26.1 per cent, are foreign born. The percentage of illiteracy of the entire population is 5.9 per cent, the state ranking twenty-fifth in this respect. The educational system of the state is as follows, the chief executive power resting not in a State Superintendent, as in most states, but in the State Board of Education, of which the Governor of the state is chairman and the Secretary executive officer.

STATE BOARD OF EDUCATION.

FRANK B. WEEKS, Governor.....	Middletown
WILLIAM G. SUMNER	New Haven
EDWARD D. ROBBINS.....	Wethersfield
WILLIAM H. PALMER.....	Norwich
SCHUYLER MERRITT.....	Stamford
CHARLES D. HINE, <i>Secretary</i>	Hartford
A. J. WRIGHT, <i>Clerk</i>	Hartford
GILES POTTER, <i>Agent</i>	New Haven

STATE SCHOOL FUND COMMISSIONER.

B. FRANK MARSH, State Capitol.....Hartford

The state has an optional text-book law, authority being vested in local boards or the voters to determine whether text-books shall be furnished free.

COUNTY SUPERINTENDENTS OF SCHOOLS.

Connecticut has no county superintendents of schools, but has instead what is called the "town system" of school supervision, each city, or in some cases, where the towns are small, a group of cities, having its individual superintendent of schools.

 School's announcement.—Unsurpassed social advantages. Pleasant excursions to Boston museums and art galleries. Concord, Salem, Bunker Hill, and Plymouth make profitable diversions for Lasell students. The art and musical influence of Boston is strongly exerted over its pupils and in these two branches Lasell Seminary has become famous throughout the country. Unusual advantages are offered in household economics free, including cooking, sewing, dress-cutting and millinery. Many graduates occupying prominent positions in social life have written thanking us for these practical accomplishments.

School's Announcement.—Founded by Prof. Alexander Melville Bell, Lecturer on Phonetics in Oxford University, England. The objects of the school are to elucidate the problems of speech: to establish a standard for oral English, and to correct all vocal and articulative defects. The method employed is Visible Speech, not as applied to the uses of the deaf, but applied to languages and to elocutionary training. Invaluable to speakers, singers and all persons wishing to correctly speak the English language.

School's Announcement.—Eastman prepares for business, combining a good English education with the technical instruction and practical work required for thorough training, and giving results, time, effort and outlay considered, of far more value in every-day life than those afforded in the universities and other institutions for "higher education." Among the best-known, oldest and most extensively patronized schools in America. About 50,000 graduates in business in all sections of the world earnestly attest the high character of the work done. No vacations. As instruction is largely individual, new students may begin work any week day. The school obtains employment for all graduates of its Complete Commercial Course. Free catalogue on application.

 School's announcement. — Eastman prepares for business, combining a good English education, with the technical instruction and practical work required for thorough training, and giving results, time, effort, and outlay considered, of far more value in every day life than those afforded in the universities and other institutions for "higher education." Among the best known, oldest, and most extensively patronized schools in America. About 50,000 graduates in business in all sections of the world earnestly attest the high character of the work done. No vacations. As instruction is largely individual, new students may begin work any week day. The school obtains employment for all graduates of its Complete Commercial Course. Free catalogue on application.

NORTH CAROLINA

SCHOOL TEXT-BOOK COMMISSION.

Duties performed by State Board of Education.

STATE READING CIRCLE BOARD.

North Carolina has no State Reading Circle Board, but her legislature makes generous provision for the building up of school libraries. A state law was passed in 1901, appropriating \$5,000 from the state funds, to be paid out, ten dollars to every school district that would appropriate ten dollars, and whose citizens would contribute ten dollars. The appropriation was taken up in three months, and two thousand four hundred books were bought for the school libraries in that year. This appropriation is continued from year to year, and there are now over 1,800 libraries in the rural schools.

NORTH CAROLINA

SCHOOL TEXT-BOOK COMMISSION.

Duties performed by State Board of Education.

STATE READING CIRCLE BOARD.

North Carolina has no State Reading Circle Board, but her legislature makes generous provision for the building up of school libraries. A state law was passed in 1901, appropriating \$5,000 from the state funds, to be paid out, ten dollars to every school district that would appropriate ten dollars, and whose citizens would contribute ten dollars. The appropriation was taken up in three months, and two thousand four hundred books were bought for the school libraries in that year. This appropriation is continued from year to year, and there are now over 1,800 libraries in the rural schools.

SCHOOL TEXT-BOOK COMMISSION.

Members: The Governor, Secretary of State and State Commissioner of Schools.

In accordance with the provisions of the School Book Law, enacted April 22, 1896, the State Commissioner of Schools, during the first half of June, each year, furnishes each Board of Education in the state the names and addresses of all publishers who, during the year ending on the first day of said month of June, shall have agreed in writing to furnish their publications upon the terms prescribed by the law. Over one hundred publishers are now under such contract. There is no state supervision over the adoption of the text-books, this authority being vested in and optional with the local Boards of Education.

OHIO TEACHERS' READING CIRCLE.

DR. J. J. BURNS, *State Secretary*.....Defiance
The Ohio Teachers' Reading Circle is organized by counties, being represented in practically every county in the state. The books for reading are adopted each year, being mainly upon the lines of pedagogy and general culture.

PUPILS' READING CIRCLE.

Organized by counties and represented in a large proportion of them. Books

OREGON

STATE READING CIRCLE BOARD.

Oregon has no State Reading Circle Board, but has a state law whereby each school district receives for library purposes an amount equal to at least ten cents for each child of school age. The money for this purpose is raised by a county tax; in some counties the tax amounts to twenty-five cents for each child of school age. All books are purchased by the Library Commission, and the purchases are made annually on a day fixed by law.

VERMONT

Vermont has the town system of schools. For the purposes of supervision, a single town or city having twenty-five or more schools must have a superintendent, and any two or more towns whose aggregate number of schools is not less than twenty-five or more than fifty, may unite through their school boards, each of which consists of three members, for the purposes of forming a supervision union.

To each union the state pays toward the superintendent's salary \$1,000 and one-half of his salary above \$1,200, not exceeding \$1,800. The superintendents conduct the examinations for teachers' certificates, and all papers are read in and certificates issued from the office of the Superintendent of Education.

DOMINION OF CANADA

Population, 5,371,051. Area, 3,456.3 Sq. Mi.

Comprises seven provinces, as follows: Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, Manitoba, British Columbia, Alberta and Saskatchewan.

GENERAL EDUCATIONAL SYSTEM OF CANADA.

By the British North American act of 1867 the right to legislate on matters respecting education was left to the governments of the four provinces (Ontario, Quebec, Nova Scotia, and New Brunswick), which were then united under the general name of Dominion of Canada. The same right has been assured also to the Provinces that have since entered the confederation (Prince Edward Island, Manitoba, British Columbia, Alberta and Saskatchewan).

The first system of public education organized in the provinces, that of Ontario, was distinctly a system under public or governmental control, and as such has been the model followed more or less closely by all the other Provinces excepting Quebec.

This system embodies features drawn from the school systems of New England and New York, but it differs from these especially by the larger provision for centralized control.

The educational systems of the respective provinces, and their colleges and other higher institutions of learning, are as follows:

ALBERTA

The educational affairs of this province are controlled by the Department of Education and for the administration of this department the Minister of Education, a member of the Executive Council, is directly responsible. The educational officers of the Province are as follows:

DEPARTMENT OF EDUCATION.

BRITISH COLUMBIA

The public schools of British Columbia are free and conducted on strictly secular and non-sectarian principles. The Government provides that school buildings shall be paid for from the Public School fund; but the salaries of teachers shall be paid in part, from an appropriation set aside by the Provincial Treasury, and the remainder to be paid from District Assessment. The members of the Executive Council shall constitute a Council of Public Instruction; the chief officer of education and ex-officio secretary of the council is the superintendent, appointed by the lieutenant-governor with the concurrence of the council. The educational officers of the Province are as follows:

DEPARTMENT OF EDUCATION.

ALEXANDER ROBINSON, B. A., Superintendent of Education.....Victoria

MANITOBA

The present school system of Manitoba was preceded by a system of separate schools for Roman Catholic and for Protestant children, the general administration of the schools being intrusted (law of 1871) to a board of education composed of an equal number of Protestant and of Catholic members.

Elementary and intermediate and high schools are maintained, and the latter may be developed into collegiate institutions preparing students for matriculation at the university.

The provincial university (University of Manitoba), incorporated in 1879, completes the educational system of the Province. The university was constituted as an examining body on the model of the old London University. But certain teaching institutions are affiliated to the university and have a representation in its council.

The educational officers of the province are as follows:

DEPARTMENT OF EDUCATION.

HON. GEORGE R. CALDWELL, K. C., Minister of Education.....	Winnipeg

ONTARIO

Ontario maintains a comprehensive system of education extending from the kindergartens (introduced into the system in 1882, now numbering 145, with an enrollment of 15,242 pupils) to the provincial university, which derives its income (\$426,838 in 1908) from the Province, and must report annually to the lieutenant-governor. The characteristic features of the system are the centralized control, securing uniformity of standards and school equipment throughout the Province; the very equitable regulations in regard to separate schools for Roman Catholic and for Protestant pupils, where desired; an excellent system of secondary education by means of the Collegiate Institutes, High and Continuation Schools; the provision for assuring the professional training of all teachers, and the close correlation of the several grades of schools by means of well-considered courses of study, uniform text-books, and examinations conducted by the central authority.

The apex of the system is the University of Toronto, which comprises the University College and ten other faculties and departments, namely, Law, Medicine, Arts, Agriculture, Pedagogy, Dentistry; Music, Pharmacy, Applied Science, and Engineering. The educational officers of the Province are as follows.

QUEBEC

The public school system of Quebec had its origin in parochial schools, which were fostered from the earliest settlement of the colony and which were recognized as the basis of the public system of education by a law of 1846. Peculiar difficulties were experienced in the development of the system because of the religious differences of the French and English populations. The former were adherents of the Roman Catholic Church and naturally resisted all efforts that threatened their relations with the religious schools of which they were staunch supporters. After a period of tentative efforts, a policy was adopted in 1875, which has proved satisfactory to the Roman Catholics, who form the vast majority of the population, while at the same time it affords protection for the rights of the Protestant minority. The system established provides for the separate control of Roman Catholic and Protestant schools without destroying their organic unity. The educational officers of the Province are as follows:

DEPARTMENT OF PUBLIC INSTRUCTION.

HON. BOUCHER, DE LA BRUERE, Superintendent of Public Instruction.....	Montreal
MR. PAUL DE CAZES, French Secretary of the Department.....	Montreal

FRATERNITIES—MEN

DELTA PHI.

Founded at Union College, at Schenectady, N. Y., in 1827, and drawing its membership altogether from the colleges of New York and contiguous states. The fraternity is very conservative and its policy is to have chapters only in colleges lying within easy reach of one another, the fraternity thus being very homogeneous in character.

The badge is a Maltese cross of gold displaying the fraternity letters in an elliptical disc in the center and on the arms of the cross an antique lamp, clasped hands and a constellation of stars. The fraternity colors are blue and white. There is no official paper published.

DELTA UPSILON.

(Non-Secret.)

A non-secret fraternity, organized at Troy, N. Y., in 1847, at a convention of anti-secret societies of Williams, Union, Hamilton and Amherst Colleges and then called the "Anti-Secret Confederation." The confederation became a fraternity in 1858, and in 1864 the name of Delta Upsilon was bestowed upon it.

The badge of the fraternity is a monogram of the fraternity letters. The fraternity colors are old gold and sapphire blue.

KAPPA ALPHA.

(Southern Order.)

Founded at Washington College (now Washington and Lee University), at Lexington, Va., December 21, 1865.

The badge of the fraternity is a gold shield, surmounted by a smaller shield, in the center of which is a slightly raised circle of black enamel, enclosing a Latin cross; above the cross are the fraternity letters. The badge is usually jeweled. In addition there is a fraternity button, displaying a crimson cross pattee, gold bordered, on a white background, with the fraternity letters engraved thereon, the whole enclosed in a rectangular rim of gold. The fraternity colors are crimson and gold; the flowers are the magnolia and red rose.

KAPPA SIGMA.

Founded at the University of Virginia, at Charlottesville, in 1867. Modeled after an ancient European secret order, the Kirjath Sepher, now extinct, which flourished in the University of Bologna near the close of the fourteenth century, its rituals embracing many of the forms and ceremonies of this ancient order.

The badge of the fraternity is a crescent of chased gold with its horns turned downward and holding suspended a five-pointed star, enameled in black and with a narrow border of white enamel and gold. Within the star are the fraternity letters encircled by jewels. The crescent displays at its widest part the skull and crossed bones, while on one side are crossed swords and on the other crossed keys. The fraternity colors are maroon, old gold and peacock blue; the flower, the lily-of-the-valley.

PHI KAPPA PSI.

Founded at Jefferson College, Canonsburg, Pa. (now united with Washington College in Washington and Jefferson College, Washington, Pa.), in February, 1852. The idea of the fraternity was conceived at the time of an epidemic of typhoid fever in the college, when day after day those who were not prostrated by the disease sat at the bedsides of their afflicted friends, ministering to them. The warm friendships engendered in this trying time ripened into the fraternal sentiment which made the foundation of the fraternity possible.

The badge of the fraternity is a shield of gold, displaying near its top an eye, on each side of which is a star; across the center of the shield are the fraternity letters and beneath is an antique lamp. The border is usually jeweled. The fraternity colors are pink and lavender.

SIGMA CHI.

Founded at Miami University, at Oxford, O., June 20, 1855, and one of the "Miami Triad," as the three fraternities, Phi Beta Theta, Phi Delta Theta and Sigma Chi, originating at this school, are frequently called.

The fraternity badge is a St. George's cross of gold and white enamel, in the center of which is an elliptical plate of black enamel displaying the fraternity letters in gold. On the upper arm of the cross are two crossed keys, on the right arm a scroll, and on the left an eagle's head. On the lower arm is a pair of clasped hands above seven stars. Two small chains connect the upper arm of the cross with the horizontal bar. The fraternity colors are blue and gold; the flower is the white rose.

GENERAL FRATERNITIES—WOMEN.

ALPHA CHI OMEGA.

Founded at the School of Music of De Pauw University, at Greencastle, Ind., October 15, 1885, by James L. Howe, dean of the school. It was originally a strictly musical organization, but of late years it has been modified into a general women's fraternity, although a certain amount of music in the college course of the members is still necessary to eligibility.

The badge is a Greek lyre, displaying the fraternity letters on a ribbon running diagonally across the strings. The fraternity colors are olive-green and scarlet; the flowers are the scarlet carnation and smilax.

HONORARY FRATERNITIES.

PHI BETA KAPPA.

(Honorary.)

Founded at the College of William and Mary, Williamsburg, Va., in 1776. Phi Beta Kappa is purely an honorary fraternity, membership being based upon scholarship and new members being chosen from the students of the Senior year in the classical course. No charters are now granted unless the students of the institution to be chartered are pursuing a course terminating in the A. B. degree or its equivalent.

The badge of the society is an oblong key of gold, on one side of which are inscribed the fraternity letters and a hand pointing to several stars; on the reverse is the owner's name and the inscription, "S. P., Dec. 6, 1776." No paper is published by the society.

SIGMA XI.

(Scientific-Honorary.)

Founded at Cornell University, at Ithaca, N. Y., in November, 1886. It is a non-secret society, restricted to scientific and technical schools, and having the same significance of scholarly merit as the Phi Beta Kappa has among the classical students. The society is based, as in Phi Beta Kappa, upon scholarship.

The badge is a watch-chain pendant formed of a monogram of the fraternity letters. There is no fraternity paper published.

FOREIGN UNIVERSITIES

The constantly increasing number of American graduate students and faculty members, who yearly seek doctorates to foreign universities makes it not inappropriate, in a book whose purpose is to furnish inquirers with a complete educational directory, to incorporate the following list of the leading foreign institutions. For much of the data herein contained the compilers are indebted to pamphlets and reports issued by foreign countries, to the Consular Reports of our consuls in various European ports, and to numerous other statistical works.

THE OXFORD COLLEGES.

The colleges of Oxford were an outgrowth of the halls or hostels systems of the early time—those little groups of scholars, often only four or five in number, who banded themselves together for mutual advantage, rented a little house or hut, chose their leader (finally known as principal), as a means to some sort of order, and then began their studies. After a while these became independent communities after the fashion of boarding houses, each governed by a master under authority of the university. Naturally they multiplied, and the colleges which supplanted them grew by degrees, with the help of many benefactions, until they numbered some fifteen during the Middle Ages, and now number over twenty, their order in time being as follows:

- | | |
|--------------------------------------|---------------------------------------|
| 1. University College 1249-1280 | 9. All Souls College 1438 |

Vital Books of Vital Treatment

THE DODGE GEOGRAPHIES

"For treatment of subject matter, and adaptability to grade work, the superior of the Dodge Geographies, in my opinion, doesn't exist," says W. S. Mills, Principal of Public School 75, Brooklyn, N. Y.

THE MACE HISTORIES

Mace's Primary History; Stories of Heroism:

Life stories of navigators, soldiers, statesmen, wizards of science—men who gave us the continent, built up its commonwealth, developed its industries. Simple, moving—an admirable stimulus to further historical study.

Mace's School History of the United States:

"In this history, the life of the people in its social and industrial aspects is treated in a way that deserves the highest commendation. The book in its material and arrangement is by far the best ever seen in the elementary schools." John M. Walsh, Principal of Irving Schools, Dubuque, Iowa.

ROBINSON'S COMMERCIAL GEOGRAPHY

By Professor E. V. Robinson of the University of Minnesota

The new text is of exceptional interest to the school world. It not only gives a remarkable exposition of the geographical commerce of the world, but it is the **only commercial geography** written by a man who has actually worked with students at an age to which he could appeal. With its deeply interesting subject matter, striking style, illustrations, and maps such as no other school book can offer, it must meet an instantaneous success.

THE CENTURY SPELLING BOOK

By J. B. Aswell, Joe Cook and S. G. Gilbreath

The Century Spelling Book is the text that children need. **It was written to teach them to spell.** And this it will do. It lays stress upon the things that make good spellers,—that teach correct pronunciation and the proper use of words. For word teaching and language work it is already making its mark in the states where it is adopted.

**THE OFFICIAL DAILY NEWSPAPER OF THE SUMMER ASSEMBLY
HELD BY CHAUTAUQUA INSTITUTION AT
CHAUTAUQUA, NEW YORK**

There are between thirty and fifty thousand persons at Chautauqua during July and August either to listen to the Chautauqua Platform speakers, the best thinkers of the country, or to benefit by the summer schools, which have an attendance of twenty-five hundred. This gathering of intellectually ambitious people with their families from all parts of the country offers exceptional opportunities to the enterprising preparatory school, college or university. Here are gathered the young people who are to be the college men and women of next winter. Here are the parents who are casting around for a thoroughly reliable preparatory school or academy. Both classes are open to suggestion, and the Chautauquan Daily, the official daily newspaper of the Assembly, reaches them all.

CATALOG DISTRIBUTION AT CHAUTAUQUA

Catalogs and other literature of the better class of schools and colleges are kept on file at Chautauqua in a public place and attention is drawn constantly to this directory. Any inquirer is urged to select what interests him and take it away for more careful study. This plan has proved very effective in the past and it will become more effective each year. Space for catalogs and literature in this Chautauqua Educational Directory can be secured in only one way. The privilege is not sold, but is given to advertisers in the Chautauquan Daily.

Rates:—50 cents per inch or 8½ cents per line, with liberal discounts for time and space contracts. Further particulars will be gladly furnished upon request.

The Readers' Index

you will also find a guide to what is appearing in the current issues of the general magazines—a short digest of every leading article in every leading magazine—just think, THE MAGAZINE WORLD AT A GLANCE—tells what you want to read and where to find it.

In the pages of the American Educational Review you will find articles by writers who can write. They will enthuse you in your work, you will broaden your scope by knowing what others think about subjects which interest you.

The American Educational Review should be read by every educator—every teacher, every person interested in the progress of higher education.

THE LEADING EDUCATIONAL MAGAZINE.

"I am not given to flattery," writes Dr. Guy Potter Benton, President of Miami University, "so I speak my own convictions when I say that I believe you now have the most interesting educational journal in America."

"The American Educational Review contains more matter that I can use than any other educational journal I know of," writes Dr. John S. Nollen, President of Lake Forest University.
